RICHMOND TERMINAL

The Terminal is the oldest newspaper in Richmond and has the confidence and support of pioneers

Vol. XV

RICHMOND, CALIFORNIA, FRIDAY, NOVEMBER 22, 1918

No. 46

War Fund Quota Easily Reaches Top

Will Make the Boys Over There Feel Happy

The United War Work fund was given a substantial boost Wednesday when the Standard Oil Co. knocked a hole in Richmond's quota by subscribing \$3000. This left a balance of \$20,000. If the 4000 S. O. and other employees in Richmond subscribe a day's wage, the city will go over the elevation easily, and have a substantial balance for good measure. Chairman J. L. Rihn and assistants made a good record.

No More Overtime; War Rush Over

Orders were received from Washington Wednesday to stop all overtime and Sunday work on government war contracts. However, the shipbuilding industry will continue without interruption for some time. Other industries will soon be readjusted.

Cancelled the Contract

The erection of additional buildings at Camp Kearney to accommodate 10,000 men is held up, the end of the war causing the cancellation of the November drafts.

Preacher - Printer Strikes Prosperity

Rev. Hugh Baker, pastor of the Pinole M. E. church, has accepted a position with the Hercules powder company printing plant and is well pleased with his position, which does not interfere in the least with his pastoral duties, besides affording a substantial income. Rev. Baker was formerly pastor of the Marin Ave. church, Albany.

Big Rice Crop

This year's rice crop for the state will total 3,500,000 bags, nearly double the product of 1917.

An additional credit of \$400,000,000 was made by the United States Treasury to Great Britain on August 30. This brings the total of credits to Great Britain to \$3,725,000,000. The total advances to all of the entente allies now amount to \$7,092,040,000.

Eleventh Hour Was Huns Last Chance to "Kamerad"

The numbers "13" and "23" did not figure in the armistice proceedings with the Huns, but No. 11 seemed to favor them. War hostilities closed the 11th day of the month, the 11th month of the year, and at the 11th hour of that day. The Huns stalled around until the 11th hour before they "came across."

Mask Slackers Pinched

Many arrests have been made recently of persons violating the mask ordinance. A mask slacker who gets "pinched" and is compelled to contribute to the Red Cross fund, can congratulate himself that he is in luck to escape so easily.

Liberty Bonds Not Discounted in Iowa

The following is copied from an advertisement of sale of farm lands in an Iowa paper: "Nothing (but Liberty Bonds) can beat an investment in a good farm." The advertiser recognizes the great truth that a Liberty Bond is the best investment in the world for a good American.

American Assets Good as Gold

It was a wise and patriotic old colored American who refused to sell his \$100 Liberty Bond for \$96, because he would not give up the United States' promise (this bond) to pay him \$100 with interest for the United States' promise (currency) to pay him \$96, and who refused to sell the same bond for \$102, because, he said, that the \$102 must be counterfeit or else the would-be purchaser would not be willing to give it for only \$103. It is safe to say that there are no gold bricks or wildcat securities among that American's assets.

Money in Walnuts

A carload of Santa Ana walnuts shipped to New York city brought \$19,215.

California peach growers shipped 3000 tons of peach stones to be used in the manufacture of gas masks.

Los Angeles Gathers Broken Glass Bottles From Streets

Los Angeles employed the services of several large motor trucks to gather up broken glass and deposit same at the city dumps where it would not do damage to automobile tires. It is said that several large loads of broken bottles were collected from the thoroughfares of the Angel City, which may be suggestive of the "thirst" which has prevailed in that city since she went "bone dry."

"Only a Few Left"

Among those who were reported ill today, who were unable to leave their homes on account of bad colds, were Mr. and Mrs. Jack Crow, Mrs. Thomas Marks and Judge H. E. Jacobs. No serious cases of the epidemic were reported.

"Little Pete" Rovada Victim of Pneumonia

Many will remember "Little Pete" Rovada at First street and Macdonald ave. The announcement of his death at Brookfield, Texas, where he was serving the U. S. in a training camp, is a sad message, for he was a fine young man, beloved by all who knew him here. His death was caused by contracting the epidemic influenza, developing into pneumonia. He was taken down Friday, and passed away Sunday at 10 o'clock following. He leaves a brother, Joseph Rovada of this city, and another brother in the Italian army in Europe.

The funeral will be held in Richmond, awaiting the arrival of the body from the Lone Star State.

"LITTLE TERMINALS"

Someone stated positively that Congressman Charlie Curry was re-elected yesterday. It might have also been stated that the sun rose yesterday on schedule time.—Martinez Gazette, Nov. 5.

Yes, and the solar planet will repeat the performance again and again. There's no chance for you, boys.

Hundreds of persons wearing glasses in the street cars are unable to read owing to the lens becoming clouded, caused by the mask. The question might be asked: Do the flu germs lodge on the lens or continue "northward."

A Richmond man carried home in his overcoat pocket an egg, a lemon, one orange and a slice of bacon without noticeably "bulging" his pocket. However, the cost of the items knocked quite a dent in his purse.

The workingman who has been receiving the unprecedented wages and whose wife is now wearing \$15 shoes and \$8 stockings, had better back up a little, and "look around."

Many things surprising are happening along the lines of patriotic endeavor. General Pershing is now being mentioned as a possible candidate for the presidency.

Who issued souvenirs and celebrated the sinking of the Lusitania? Germany. Who are now facing hunger and famine and begging for food? The Huns.

Why not hold a constitutional convention every two years instead of sessions of the legislature, thus reducing expenses to a minimum?

"Bugs is eggs" this winter and "pork is pork," but the profiteer doesn't worry—he gets there just the same.

Colonel Infla has saluted General Debility and the march of progress has been resumed again.

The pawnbrokers of Berlin have "hawked" the Kaiser.

"I Saw It in THE TERMINAL"

Municipal Wharf to Get Busy and Earn Income for City

The U. S. Navy has taken over a portion of the Municipal wharf for storage purposes, a contract to that effect being signed Wednesday by J. H. Misher, harbor manager and H. M. Wade, traffic manager. The lease is over an indefinite term and the city will realize about \$2,000 per month, which amount will increase with the space used.

The huge traveling electric crane which arrived a few weeks ago has been placed in position and with the assembling of its electrical apparatus it will be in working order in a few days.

Passing of Santa Fe Railroad Man

Jack Smith, formerly Santa Fe agent at Knightsen and a member of Richmond Lodge of Elks No. 1251, died Tuesday at Los Angeles. He will be buried in that city. Smith was well known in Richmond among the railroad men. He was 25 years of age.

Sunday-Schools Will Remember Starving Armenians

The American Sunday-school Ass'n is making arrangements for a nation-wide collection of a fund which is to comprise the Christmas offerings of the children in the Sunday-schools—a nationwide drive for the relief of the people in Armenia, Syria and Persia. The Sunday-schools of Alameda and Contra Costa counties are preparing to do their share.

Passing of Randolph Nesbitt in France

Word comes officially from the war department that Randolph Nesbitt of 524 Barret avenue, Co. H, A.E.F., died in France of pneumonia. He was 34 years of age and was formerly employed by the S. O. in the barrel house.

A brother, H. A. Nesbitt, Co. K, from Richmond, fought in the trenches in France.

The mother, Mrs. J. R. Nesbitt, has the sympathy of a large circle of friends in the loss of her son.

Strange, isn't it, with baths still in use in England that were built by the Romans, that just across in France you can't get a bath once a month in the trenches. The Yankees shown above are visiting the old Roman plunge at Bath, England, while enjoying the hospitality of our British cousins. While en route to France, thousands of American soldiers have had their hearts warmed by the cordial entertainment of the English.

**Somebody's Dollars Will Do It—
I Wonder if They'll Be Yours**

By Bruce Barton

I WILL tell you what will happen some night this winter in France. Some night when it's cold and dark. There will be a rustling through the front line trench, where our boys stand guard. And a heavy ladened Secretary will make his way along.

In his hands will be great steaming pots: in his pocket chocolate and cigarettes.

From one man to another he will go, passing a cup full of hot coffee to hands that tremble with the cold; bringing the comfort of a bit of sweet and a smoke.

Men will hail him cheerily, slapping him on the back; and when he has gone things will be a little easier in that trench because he has passed that way.

How much will it cost to make that trip, do you suppose? Counting the pittance that the Secretary is paid, and the cost of the chocolate and the cigarettes and all?

Five dollars? Twenty-five dollars? I do not know.

But whether it is five dollars or twenty-five, I'd like to think that it is my five or twenty-five—wouldn't you? That some night when it's cold and lonesome, my money and yours might send a Secretary out along that front line trench. Let's make up our minds that we are going to pay for a score of those trips. A score of the nights this winter shall be our nights.

—nights when the boys greet joyously the chocolate and cigarettes that our money provided; and are happier because our representative has passed.

United War Work Campaign

For the Boys in the Service

Business Houses in Richmond Reopened

Preacher Williams Is "On His Way"

(Albany Argus)
A letter from Private Mahlon J. Williams from Washington, D.C., states that "when you receive this I will be on the Atlantic bound for France."

Private Williams was pastor of the Marin Ave. M. E. Church previous to his enlistment.

Taken to Hospital

J. M. Lehnhart, 255 Fifteenth Street, was taken to the county hospital Wednesday, suffering from the smallpox, according to Dr. C. R. Blake, City health officer, the case was the real virulent kind.

Convalescent

Mrs. Wilbur Sroufe of 148 S. 14th street, who has been seriously ill, not being able to leave her home since last July, is regaining her strength and is on the road to recovery.

Developed in Serge

Epidemic Is Practically Wiped Out in This City

Although all places of business are open again, the quarantine having been raised, the utmost precaution should be taken to prevent the "coming back" of the epidemic, a scourge that hit Richmond hard. Dr. C. R. Blake, the health commissioner, may have been criticised in regard to certain restrictions and requirements, but it was lucky for many of us that he made his orders imperative. The few cases of epidemic now in this city are of a mild character, and the death list is nil.

The churches, schools, lodges—in fact all lines of business will soon assume their normal status, and business will be good in Richmond.

The saloons, ice cream parlors and other lines of business which have been closed on account of the epidemic, have opened their doors again; and things begin to look natural in Richmond.

"What Has Become"

What has become of the gink who proclaimed: he would not get a haircut until the Huns were licked?

What has become of the "kaiser hoochers?"

What has become of Kaiser Bill, the German butcher, who held forth in Berlin?

What has become of the big gun that threw so many 'pills' over on Paris?

One more—What has become of that pompous German Empire?

STOP! CALOMEL IS QUICKSILVER

It's mercury! Attacks the bones, salivates and makes you sick.

There's no reason why a person should take sickening, salivating calomel when a few cents buys a large bottle of Dodson's Liver Tonic—a perfect substitute for calomel.

It is a pleasant, vegetable liquid which will start your liver just as surely as calomel, but it doesn't make you sick and can't hurt you.

Children and grown folks can take Dodson's Liver Tonic, because it is perfectly harmless.

Calomel is a dangerous drug. It is mercury and attacks your bones. Take a dose of nasty calomel today and you will feel weak, sick and nauseated tomorrow. Don't lose a day's work. Take a spoonful of Dodson's Liver Tonic instead and you will wake up feeling great. No more biliousness, constipation, sluggishness, headache, coated tongue or sour stomach.

Your druggist says if you don't find Dodson's Liver Tonic acts better than horrible calomel your money is waiting for you.—Ad.

Doing His Duty.

Jimmy had been coaxing his mother all day for some of the new jam that she had made, and in order to discourage him she tried to tell him that it did not turn out well, and that she would have to give it to the little dog, Toodles, next door. A few hours later she found him in a corner of the pantry, all smeared up with the jam and the jar half empty. In answer to his mother's questions as to what he was doing, he said: "Toodles don't like jam, and I know that Hoover says you mustn't frow anything away, so I thought I would eat it."—Chicago Tribune.

PRESIDENT TELLS ARMISTICE TERMS

(Continued from page 2)

"The war thus comes to an end; for, having accepted these terms of armistice, it will be impossible for the German command to renew it.

"It is not possible to assess the consequences of this great consummation. We know only that his tragical war, whose consuming flames swept from one nation to another until all the world was on fire, is at an end and that it was the privilege of our own people to enter it at its most critical juncture in such fashion and in such force as to contribute in a way of which we are all deeply proud to the great result.

"We know, too, that the object of the war is attained, the object upon which all free men had set their hearts, and is attained in a sweeping completeness which even now we do not realize. Armed imperialism such as the men conceived with war, but yesterday the masters of Germany is at an end, its illicit ambitions engulfed in black disaster. Who will now seek to revive it?

"The arbitrary power of the military caste of Germany, which once could secretly and of its own single choice disturb the peace of the world, is discredited and destroyed. And more than that—much more than that—has been accomplished. The great nations which associated themselves to destroy it have now definitely united in the common purpose to put to such a peace as will satisfy the longing of the whole world for disinterested justice, embodied in settlements which are based upon something much better and much more lasting than the selfish greed and conquest of the past. There is no longer a power of states. There is no longer a power of the world. There is a mind in the matter, not only, but a heart. And there is a purpose and a purpose is to satisfy and protect the weak as well as to accord just rights to the strong.

"The humane temper and intention of the victors have in the present war been manifested in a very practical way. Their representatives in the supreme war council at Versailles have by unanimous resolution assured the people of the central empires that everything that is possible in the circumstances will be done to supply them with food and relieve the distresses which that is in so many places threatening. It is not only a humanitarian act, but a practical one. It is to be taken immediately to organize these efforts at relief in the same systematic manner that they were organized in the case of Belgium.

"The use of the idle tonnage of the central empires it ought presently to be possible to lift the fear of utter misery from their oppressed populations and set their minds and energies free for great and noble tasks of political reconstruction which now face them on every hand. Hunger does not breed reform; it breeds madness and all the ugly disorders that make an ordered life impossible.

"For with the fall of the ancient governments which rested like an incubus upon the peoples of the central empires, has come political change not merely a revolution, and revolution which seems as yet to assume no final and ordered form, but to run from one wild change to another, until though the men are forced to ask themselves, with what government, and of what sort, are we about to deal in the making of the covenants of peace? With what authority will they meet us, and with what assurance that their authority will be sustained and maintained in the international arrangements into which we are about to enter? There is no matter for no small anxiety and misgiving. When peace is made upon whose promises and engagements beside our own is it to rest?

"Let us be perfectly frank with ourselves and admit that these questions cannot be satisfactorily answered now. But the moral is in the fact that there is little hope of an early answer that will suffice. It is only that we must be patient and helpful and mindful above all of the great hope and confidence that at the heart of what is taking place. Excesses accomplish nothing. Inhumanity Russia has furnished abundant recent proof of that. Disorder immediately defeats itself. If excesses should occur, if disorder should for a time raise its head, a sober second thought will follow and a day of constructive action, if we help and do not hinder.

"The present and all that it holds belongs to the nations and the peoples who preserve their self control and the orderly processes of their governments; the future to those who prove themselves true friends to mankind.

"To conduct with arms is to make only a temporary conquest; to conquer the world by raising its esteem is to make permanent conquest. I am confident that the nations that have learned the discipline of freedom and that have settled with self possession to its ordered practice are now about to make conquest of the world by the sheer power of example and of friendly helpfulness.

"The peoples who have just come out from under the yoke of arbitrary government and who are now coming at last into their freedom will never and the peoples of liberty they will be in search of it they look for them by the light of their own hearts. They will find every pathway that is stained with the blood of their own brothers leads to the wilderness, not to the seat of power. They are now face to face with their initial task. We must hold the Night ready until they find themselves. And in the meantime, if it be possible, we must establish a peace that will justly define their place among the nations. For the fear of their neighbors and of their former masters and enable them to live in security and contentment when they have set their own affairs in order. I for one do not doubt their purpose and their capacity. There are some happy signs that they know and will choose the way of self control and peaceful accommodation. If they do we shall put out aid at their disposal in every way that we can. If they do not we must wait with patience and sympathy the awakening and recovery that will assuredly come at last."

Bristled Right Up.

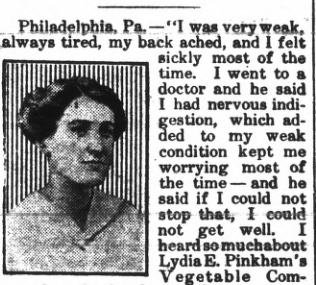

"Miss Jones," said the hostess, "permit me to introduce Mr. Hogg, author of those delightfully clever poems you must have read."

"I am glad to meet Mr. Hogg," said the young woman. "Pardon the question, but is that your real name?"

"Certainly," said Hogg, bristling up; "did you think it was my pen name?"—Boston Transcript.

THIS WEEK, NERVOUS MOTHER

Tells How Lydia E. Pinkham's Vegetable Compound Restored Her Health.

Philadelphia, Pa.—"I was very weak, always tired, my back ached, and I felt sickly most of the time. I went to a doctor and he said I had nervous indigestion, which added to my weak condition kept me worrying most of the time—and he said if I could not stop that, I could not get well. I heard so much about Lydia E. Pinkham's Vegetable Compound my husband wanted me to try it. I took it for a week and felt a little better. I kept it up for three months, and I feel fine and can eat anything now without distress or nervousness."—Mrs. J. WORTHLINE, 2842 North Taylor St., Philadelphia, Pa.

The majority of mothers nowadays, overdo, there are so many demands upon their time and strength; the result is invariably a weakened, run-down, nervous condition with headaches, backache, irritability and depression—and soon more serious ailments develop. It is at such periods in life that Lydia E. Pinkham's Vegetable Compound will restore a normal healthy condition, as it did to Mrs. Worthline.

Sure! High Heels Cause Corns But Who Cares Now

You reckless men and women who are pestered with corns and who have at least once a week lived an awful death from lockjaw or blood poison are now told by a Cincinnati authority to use a drug called Freezone, which the moment a few drops are applied to any corn or callus the soreness is relieved and soon the entire corn or callus, root and all, lifts off with the fingers.

Freezone dries the moment it is applied, and simply shrivels the corn or callus without inflaming or even irritating the surrounding tissue or skin. A small bottle of Freezone will cost very little at any of the drug stores, but will positively rid one's feet of every hard or soft corn or hardened callus. If your druggist hasn't any Freezone he can get it at any wholesale drug house for you.—Ad.

WRIGLEY'S

Giveto United War Work

Nov 11-18

We will win this war—
Nothing else really matters until we do!

Be patient here—Our Boys are getting WRIGLEYS over there!

Unlike Topsy—Swift & Company Has Not "Jest Grown"

Swift & Company, in fifty years of well ordered growth, has become one of the great national services because it has learned to do something for the American people which they needed to have done for them, in the way in which they preferred to have it done.

It has met each successive demand, in the changing conditions of national life, by getting good meat to increasing millions effectively, efficiently, economically, and expeditiously.

The Swift & Company packing plants, refrigerator cars, car routes, branch houses, organization, and personnel of today are the practical solutions, born of practical experience, to the food problems of half a century.

Because of all these elements working in correlation and unison, Swift & Company is able to supply more and better meat to more people than would have been possible otherwise, at a net profit per pound of meat so low (a fraction of a cent) that the consumer price is practically unaffected.

Strip away any portion of this vast, smooth-running human machine, and you make a large part of the meat supply uncertain, lose the benefit of half a century of fruitful experience, and scatter the intelligent energies of men who have devoted a life work toward meeting the needs of a nation in one vital field.

The booklet of preceding chapters in this story of the packing industry will be mailed on request to Swift & Company, Union Stock Yards, Chicago, Illinois.

PERFECTION OIL HEATER

Good Suggestion and an Excellent Cure

Now that a great discovery has been made in the wearing of masks to prevent the spread of disease, why not make it compulsory to wear them continually, requiring the dead-beat contingent to wear a conspicuous yellow colored mask, so there would be no difficulty in spotting them. This would be a boon to the business men and shopkeepers who are continually being stung by these "bad eggs."

Was He Your Boy?

The other night an American boy went out into No Man's Land, and didn't return. Later, comrades found him hacked to bits. His remains were gathered up and brought back in a sack. This brave young American was chopped to pieces with German cutlery. Here's a tip for the easy-going American. Are you patronizing Hun "Made-in-Germany" goods.

For Sale

Against the wrong that needs resistance,
And the good that we can do.

HOME GROWN SUGAR SAVED THE DAY

The war has demonstrated one fact clearly—home grown sugar is feeding the nation. Thirty-five states comprising four fifths of total area of U. S. must depend on home grown sugar until end of year and a large portion of this area for a much longer period.

The beet sugar output comes just at the season when output from other sources is exhausted.

If it were not for American beet sugar supplying the market today, an absolute sugar famine would prevail.

And yet a year ago there were agitators among the farmers saying don't raise sugar beets, ostensibly to force a higher price.

But sugar beets have saved the day and next year the acreage should be greatly increased to strengthen the industry to meet the after-war competition.

Reports from different sections of the west indicate a favorable reaction towards sugar beet growing, as experience of many farmers this year with wheat, bean and potato growing did not come up to expectations.

STABILITY OF PRICES IMPORANT

The sheep and wool industry are vital to the life of the nation from the standpoint of food and clothing.

After-war conditions are going to place a hard strain on this joint industry and stability of prices is very important.

The normal clip of wool in our country is from 280,000,000 to 300,000,000 pounds a year, and we import as much more.

There has been some accumulation of foreign wools on account of suspended trade with the Central powers and lack of shipping.

The great duty before the people of our country is to hold and enlarge flocks and supply more wool and mutton for market.

We should produce 400,000,000 pounds a year and the industry should be on the up grade instead of declining in production.

The government should stabilize prices for at least two years and continue the present warehousing and commission system of handling.

When a wife begins to give the house dog or the cat more attention than the husband, then preliminaries are often started for interesting developments along affinity and divorce lines.

Chico is preparing for the opening of a new \$200,000 hotel which is named "Hotel Oaks," a six-story modern structure.

The beat of the drum smother the knock of the hammer.

Suburban News

It Was Too Tame For Pete in Paris, So He Went to the Front

(Albany Argus)

A letter received from Pete McCulloch dated Paris, September 22, states that he has left the above named city, where he was acting as field secretary for the Knights of Columbus, and has joined a division which includes a number of units composed of Californians.

Pete, like all real soldiers, desired to get where there was something doing, where the shells fly and the shrapnel splatters against the tin hats, and where gas masks are in style.

Pete is one of the many Albany young men who performed their share in winning the war without even thinking of the danger they are subjected to in fighting an unfair and barbarous enemy.

Passing of Albany Woman in Redding

(Albany Argus)

News comes from Redding of the death of Mrs. Elmer Weston, who passed away in that city Nov. 7 of the prevailing epidemic influenza. Mrs. Weston was a resident of Albany and owned residence property on Cornell ave. She was a schoolteacher and beloved by all who knew her.

New Specie of Chicken Thief at Large in Albany

(Albany Argus)

Mystery surrounds the attack on the chicken house of Samuel Chase, 1208 Marin avenue Tuesday night.

Mr. Chase, hearing a disturbance among the fowls, went out to investigate. He found three dead pullets, three others wounded and two missing. Mr. Chase would be pleased to try out the penetrating qualities of his shotgun on this night marauder, if he or it will call again.

Wedding Bells

Married—Boggino-Sampietro, Sunday, Nov. 3, 1918. Miss Nora Sampietro to Thomas Boggino.

Tom Boggino is from the northern city of Vancouver, is a fine young man, an old friend of the Sampietros.

The bride is one of Albany's favorite girls in the younger social set, popular and attractive.

Congratulations to the happy newlyweds continue to pour in.

May Be "War Hut"

Earl Tenney is erecting an observatory on his county line property, but has not stated the object, nor even intimated the size of the telescope he intends to install.

Never "Dry" at the County Line

All saloons north of the county line adjoining Albany have reopened, the "quarantine" having been raised. This arrangement is quite convenient for "thirst parlor" patrons. When it is dry on one side of the line, it is wet on the other, and vice versa.

Bandit Hops on Car at Hopkins

And then, after relieving Motor-man B. Larson of his watch, he hopped off again.

The job was done in record time Thursday night. Mr. Holdup became rattled. His intention was to "frisk" the conductor, but there were too many masked passengers.

He made a clean get-away and is still running toward Wildcat canyon, bound north.

Clark Leaves Manila

Harold Clark writes his mother from Manila that he has entirely recovered from an attack of the yellow fever and will soon sail from that port.

Johnson, bootblack, 6th and Mac.

FOREIGN WOMEN LEARN AMERICAN ARTS

A corps of translators and interpreters in fifteen different languages are employed by the War Work Council of the Y. W. C. A. They interpret foreign-born women whose husbands have been called into the service in such intimate questions as the laws relating to rentals and labor, in the care of children and in how to use American foods in dishes adapted to foreign tastes and present high prices.

This last work is done in co-operation with the Government Food Conservation Commission and the Home Demonstration Work of the U. S. Agricultural Department.

Leaflets are sent out and articles circulated through the foreign newspapers. One of the efforts is to tell these strangers of the resources for themselves and their children which this country provides.

HARVEST THE CROPS AND WHIP THE KAISER.

"Hunger is the Kaiser's best weapon." The Y. W. C. A. believes it. This is why it is making it possible for high school girls in New York state to help farmers in the fields; for college girls in the Middle West to do general farm work; for Polish women in New Jersey to pick potatoes and for boys and girls across the continent in Washington to gather fruits.

All this work is part of the campaign to "save the crops and beat the Hun."

It is the aim of the Y. W. C. A. to demonstrate the best ways of housing and feeding farm laborers and so take the burden from farmers' wives.

In all the places where women are working under the direction of the Y. W. C. A. a house is provided for the laborers, with a supervisor in charge. The supervisor's business is to make all business arrangements with the farmers and provide the food, if children accompany their mothers, a trained woman looks after them while their mothers are in the fields.

The Hotel Petrograd of Paris is one of the three Y. W. C. A. hostess houses in France. The others are at Bourges and Tours. The social rooms of all are open to any woman or girl at any time of day or evening to meet her men or women friends, rest, enjoy social intercourse, read or write.

BOMB PARLOR FOR AMERICANS IN PARIS

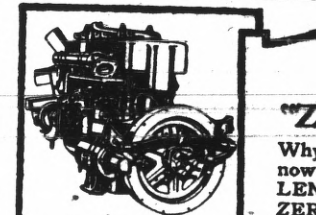

"A series of unearthly walls from the sky that announces an air raid and we are out of our beds and down in the bomb parlor in double quick time," writes a woman who lives at the Hotel Petrograd in Paris. "Many times I have made the flight twice in a night. But you get used to it and drop off to sleep again as soon as you get the chance."

"The bomb parlor" is one of the unique features of the Petrograd. It is not its official title—a few of us have named it that. It is a good sized room at the bottom of the house and has an outside wall. Once there, we feel as safe from harm as we ever did in our beds. We spend the time between the "alerts" that turns us out of bed and the "all clear" signal that tells us to go back, with games, reading and visiting. I have seen Red Cross nurses on the floor fast asleep in spite of the awful din of the bombs and guns.

"More kinds of uniforms in all stages of freshness and fading come into the Petrograd, which is the American Y. W. C. A. hostess house of Paris, than any other place in France. Soldiers and sailors meet their women friends there; there are the Red Cross nurses, the women of the Signal Corps, American women stenographers, various medical orders, the Y. W. C. A. naturally, and all the rest. It is a never ending, strangely shifting throng.

"Besides being unique for its 'bomb parlor,' the hotel serves butter for breakfast and has bathing facilities for its resident guests at all hours. These are enough to give lasting fame to any house in France at this time. Last winter it was known as the 'house with warm rooms.'

The Hotel Petrograd of Paris is one of the three Y. W. C. A. hostess houses in France. The others are at Bourges and Tours. The social rooms of all are open to any woman or girl at any time of day or evening to meet her men or women friends, rest, enjoy social intercourse, read or write.

Correct Lubrication for the "T" Head Type Engine

The "T" Head, illustrated here, is one of several types in popular use today. Engines of this type, like all internal combustion engines, require an oil that maintains its full lubricating qualities at cylinder heat, burns clean in the combustion chambers and goes out with exhaust. ZEROLENE fills these requirements perfectly, because it is correctly refined from selected California asphalt-base crude.

ZEROLENE is made in several consistencies to meet with scientific accuracy the lubrication needs of all types of automobile engines. Get our "Correct Lubrication Chart" covering your car. At dealers everywhere and Standard Oil Service Stations.

ZEROLENE does hold better compression, does give better protection to the moving parts, does deposit less carbon. And this is the testimony of the leading automobile distributors of the Coast.

They know from the records of their service department—and we know from exhaustive tests—that ZEROLENE, correctly refined from selected California asphalt-base crude, gives perfect lubrication with less wear and less carbon deposit.

ZEROLENE is the correct oil for all types of automobile engines. It is the correct oil for your automobile. Get our lubrication chart showing the correct consistency for your car.

At dealers everywhere and Standard Oil Service Stations.

Experts Say, "Zeroleone Is Better"

Why are the majority of cars now lubricated with ZEROLENE? Because—

ZEROLENE does hold better compression, does give better protection to the moving parts, does deposit less carbon. And this is the testimony of the leading automobile distributors of the Coast.

They know from the records of their service department—and we know from exhaustive tests—that ZEROLENE, correctly refined from selected California asphalt-base crude, gives perfect lubrication with less wear and less carbon deposit.

ZEROLENE is the correct oil for all types of automobile engines. It is the correct oil for your automobile. Get our lubrication chart showing the correct consistency for your car.

At dealers everywhere and Standard Oil Service Stations.

RICHMOND, CALIFORNIA, FRIDAY, NOVEMBER 22, 1918

No. 47

United War Work Campaign Completed

Richmond Raises Her Quota With Good Measure

Richmond is 100 per cent! While some of the other bay cities and towns in California have continued to "whoop it up" to raise their quotas, Richmond simply knocks a home run and cleans the bases.

Richmond has a nation-wide reputation for doing things, and does not consume much time in the premises.

The Fourth Liberty Loan was so easy that the quota of \$325,000 was nearly doubled the first week of the campaign.

The United War Work campaign has been completed with the most gratifying results. Much credit is due the corps of workers who had charge. The \$23,000 quota was raised, and a few thousand to spare.

The following is a partial list of the contributions:

Standard Oil Co.	\$5000
S. O. Employees	1850
Macdonald Avenue	2400
Mobilized women	1482
Pullman employees	1850
Santa Fe	1140
Pt. Richmond	475
San Pablo	465
El Cerrito	437
HdQrs.	173
Certainated	141
Union Tank Line	105
Pacific Porelean	164
Miscellaneous	205

Additional contributions have swelled Richmond's quota to over \$30,000, which will secure a few Christmas turkeys for those "boys over there."

GERMANY'S RECORD AS NATION

Rose to Power in Trickery and Has Long Been Recognized as Thoroughly Unscrupulous.

Germany up to 70 years ago was not in existence as a nation, but was a federation of small principalities. Prussia, the nucleus of the German empire, was always quarrelsome, boastful of her military supremacy, crafty, cruel and of doubtful diplomatic integrity. The South German principalities, although more or less Prussian in blood, yet were independent, and constantly fighting with each other, jealous and striving for power one over the other. The famous federation of German states which was believed at first by the people to be a true democratic federation, was fathered by Bismarck, the Iron Chancellor. The trickery by which many of the German states were hoodwinked into this alliance was the direct cause of the German revolution, which was nipped in the bud through the already marvelous perfection of the German military machine, and in 1818 some 500,000 German revolutionists emigrated to the United States with the price of Prussia's disapproval on their heads. Since that time Germany has been recognized as a formidable military power by all the world. The only war she had waged as a federated empire up to the present one was the Franco-Prussian war in 1870 in which Germany was markedly the victor. It was settled by indemnity and the annexation of Alsace-Lorraine.

Pacific Co-Operative League Attracting Attention

The "Utopian dream," as many skeptical persons would call the co-operative plan of stores in producing, distributing, manufacturing, etc., of all merchandise, foodstuffs and produce, may be a reality—in fact the movement has struck Richmond, the promoters meeting with much encouragement.

The co-operative plan in England has eliminated the middlemen and profiteers, and is said to have worked a great benefit to the people during the four years of war.

When the people co-operate as consumers, they make the most powerful combination possible, and quickly put out of business the gambler in the necessities of life.

When we consider that the International Co-operative Alliance numbers 40,000,000 persons and in Great Britain alone did more than one billion dollars' worth of business for, by and among themselves in producing, manufacturing and selling, we must awaken to the fact that the plan possesses merit and is worth while investigating.

VERY OFTEN

Miss Chance—What is the difference between illusion and delusion? Mr. Wise—Illusion is the splendid ideas we have about ourselves; delusion is the foolish ideas other people have about themselves.

GETTING A SMOKE.

There is a lad in our barracks who one day ran out of cigarettes and tried to get one, but nobody wanted to donate him any. Finally in disgust he went out through the front end of the barracks without saying a word. He returned through the rear end and in a company commander's voice he yelled: "Attention." At this everybody stood at attention, wondering what the order was going to be. It was only "Who has a cigarette?" He received more than one, as everybody thought he had put one over on them.—Chicago Tribune.

"YANKS" IS IT.

A recent editorial in the Stars and Stripes on nicknames for our army lads cheers us a lot in our lonely stand against "doughboys." That nickname doesn't even get a "look in" in the army's official organ. The editorial concludes: "You can't manufacture a nickname in a century, but one can be hooked to you in a day. Yanks it is."

"P. S.—We have just thought of another objection to doughboys. Culinary, doughboys and noodle are practically the same thing—and our soldiers are not 'noodles.'"

Boston Transcript.

Time Extended For Sending Boxes to Soldiers

American Red Cross headquarters have received authorization to extend the date for mailing Christmas boxes to the soldiers in France to November 30th, extending the time ten days. The war department authorizes the Red Cross to furnish special labels, the applicant to sign a prepared statement.

Sweeten Up; No More Grouching

After December 1st Californians will be allowed four pounds of sugar instead of 3 per month.

The increase in the allotment is only effective in sugar producing states.

Richmond B. P. O. E. will entertain ladies' night early in December.

BROUGHT OUT BY THE WAR

Bank President Probably Had Never Realized What He Could Do Until He Tried It.

The private office of John B. Larner, president of the Washington Loan and Trust company, used to look like a room in Spaulding's Hotel and the was-shortage put it in the care of an inefficient. The banker stood it for just so long, and then proceeded to polish up the handle of his front door with the zeal of one who has discovered within himself an unexpected talent.

Office cleaning is not what Truthful James could conscientiously call the king of sports, but Mr. Larner knows an emergency when it comes his way, and was sweeping the floor in fine style when a customer in search of the head of the bank opened the door and asked if he were the janitor. And the worker-janitor his broom long enough to explain with a politeness for which all janitors are not noted:

"No, unfortunately, I am only the president of the bank."

Which shows that yeomen, ambulance chauffeurs and cross-section nurses are not the only ones in this war to develop hidden gifts. There are others.—Washington Star.

It every day were my day,
How fine a man I'd be.
With every day a gay day
How glad my wife would be!

Bay City Maccabees Plan Big Joy Ride to Niles

The numerous hives of Maccabees of the bay cities will swarm Wednesday, December 4, alighting in Niles, where an initiation of large proportions will be staged. Delegations from Richmond, Albany, Berkeley, Oakland, San Francisco, etc., will be in attendance, also the state officers and organizers of this district.

No Perceptible Change In "Population"

The rumor recently started that fifty families, the heads of whom were Santa Fe Railroad men, had moved to Oakland on account of their runs from Richmond to Riverbank having been changed making Oakland the terminal, is without foundation.

Ten families is the maximum number effected by the change, C. E. Adams, a passenger engineer and family being about the only ones who could consider this city other than a transitory place of residence.

There is not a vacant residence in Richmond, many families being compelled to get along in improvised quarters until better accommodations can be secured.

Standard Avenue May Be Widened

The city council Monday night ordered the city engineer to make a preliminary schedule of the work required for the widening of Standard avenue from Contra Costa avenue to the Standard Oil works.

An assessment of large proportions may be required to make the improvement, which is much needed owing to the narrowness of the thoroughfare and the congestion of traffic.

Board in Private Family. Wanted—Room and board with private family, by mechanic. Address Frankel, Pullman Shops.

The Terminal is on file in all the public libraries in Contra Costa county and has hundreds of readers.

Rainbow Division Hit Ball For Hard Fighting

The "Rainbow" division which is composed of the pick of the national guard of the entire country and which went overseas early last fall will return by Christmas, so states a Washington letter. Every state in the union is represented, many boys from Oakland and other California cities being members. They have seen much hard fighting. They went first into the Toul section, helped capture Cantigny, participated in the battle of Chateau-Thierry, and were prominent in the battle of St. Mihiel and more recently on the Meuse.

In the Shadow

Little Pete Roveda, the Richmond soldier who died at Camp Brookfield, Texas, was buried with military honors in Sunset Monday, under the auspices of the Home Guards. The casket was covered with beautiful floral offerings, evidence of the love and thoughtfulness of many friends. Many will miss little Pete, for his friends were legion.

War Data For Contra Costa County

Contra Costa county boys are entitled to a place in the history of the war, and Senator W. R. Sharkey, of Martinez has been appointed chairman of a commission to prepare data relative to this county's part taken in the great battle for democracy.

Send your boy's war biography to the senator, and he will do the rest.

Cap Works Employees Are Remembered In Will

The will of the late William Letts Oliver, owner of the Stege Cap Works, who died in Oakland, was filed for probate in the superior court of Alameda County this week by M. R. Jones, a son-in-law of the late capitalist, and attorney for the heirs. The will, which was executed on December 7, 1917, included in its provisions a sum of \$5,500 to be divided among the employees of the Cap Works at Stege.

No More Spanish Influenza in Richmond

No Dancing Allowed May Start Flu Again

The dancing germ is beginning to make its appearance in the bay cities, but the health authorities emphatically say, "not yet but soon"—that is, as soon as the flu germ is stamped out—not before.

Business is Going to Be Good, Says Wilson

Washington, Nov. 22.—Within a few weeks the United States will undergo a big business boom, according to forecast of leading government officials here today. They anticipate no hard times or "panic" during the process of graduating industry back from war to peace.

T. E. Bree Promoted

T. E. Bree, the well known salesman for the S. O. sales department, has been advanced to Superintendent of the refining department.

Mr. Bree is succeeded by W. M. Perkins, who is well acquainted with the sales department work.

Changes Planned In Court House

A committee consisting of Superior Judges Latimer and McKenzie, Sheriff Veale, and District Attorney Elect A. B. Tinning was named Monday by the supervisors to submit a plan for changing some of the offices in the court house.

The revision of a number of the rooms of the court house is required on account of the volume of business caused by the growth of the county.

Contra Costa County Celery Going East

Many carloads of celery are daily shipped from Antioch, this county, and although the season is late, the quality is good, and war prices prevail, about double that of previous years. Like all other California products, celery goes to the Eastern consumer.

Richmond's Mortuary List For October

Statistics submitted by the health commissioner for October are as follows:

Died from influenza, 89.
From other causes, 15.
Fifty-seven of the above were between 20 and 40 years of age.

Masks Are Discarded. Flu Epidemic Subsides

By order of City Health Commissioner C. R. Blake it is optional with persons now in regard to wearing masks. The order was made last night.

While other bay cities abandoned the nasal protection a day or two previous to Richmond, the "safety first" method was strictly adhered to throughout the month's run of the scourge in Richmond.

Salinas, a city thought to have escaped, is now in the throes of the plague, which is said to be raging fiercely.

Los Angeles is hard hit, 500 to 600 being reported daily. It is conceded that the mask is a preventive, and that the Angel City was lax in enforcing the order to wear the nasal protection.

Many in Richmond will continue to wear the mask, especially when attending public gatherings. It is a sensible thing to do.

Real Guns For High School Cadets

A requisition for seventy-five Springfield rifles has been issued to the Richmond school department as equipment for the cadet company, which has been organized at the high school. The guns will be shipped to Richmond from Sacramento at an early date.

Gone to Yolo County

Martin Lewis left Wednesday for Capay, Yolo county, where he has a small fruit and produce ranch which he visits frequently, always returning with his car well filled with good things that relieve the H. C. L.

Mr. and Mrs. Jack Crow Convalescent

Mr. and Mrs. Jack Crow of Second street, who were victims of the Spanish influenza, are reported as recovering from the attack and will soon be well again. Jack says it had a queer effect on him—he wanted to write "poetry" in his delirium.

Francis J. Heaney, the tailor at 204 Macdonald, has returned from the hospital, after a siege of the Spanish influenza.

The Terminal is on file in all the public libraries in Contra Costa county and has hundreds of readers.

World's News of the Past Week

PEACE CONFERENCE BEFORE DEC. 15TH

Meeting of Inter-Allied Conference to Be Held Soon Will Decide Date

Paris.—The general feeling of the associated governments is that Versailles, France, is the most convenient place to hold the peace conference, and, if this were decided upon, it also would serve as a recognition of the paramount position of France in the war.

Copenhagen.—North Schleswig newspapers are publishing an appeal signed by 302 Danish associations demanding that Germany at the peace negotiations settle the North Schleswig questions on the basis of the right of self-determination of all peoples.

Paris.—It is probable that the first meeting of the peace conference will be on a date before December 15, after the English parliamentary elections, and at a time which will give ample opportunity for the American and other delegates to arrive. A meeting to be held shortly of the inter-allied conference will finally determine the details of these questions.

Premier David Lloyd George and Foreign Minister Balfour of Great Britain, Premier Orlando and Foreign Minister Sonnino of Italy, Premier Venizelos of Greece and Foreign Minister Panchitch of Serbia, are on their way here for a resumption of the conference at the home of Colonel Edward M. House, special representative of the United States Government, and the sessions at Versailles.

Besides outlining the general program of the conference, the question of meeting the food situation in Germany and Austria probably will be considered.

London.—Communications have been addressed to the German authorities giving directions for German delegates, in conformity with the armistice conditions, to present themselves to Belgian delegates at Brussels on November 15, and also to the president of the inter-allied commission of railways in the field and the president of the inter-allied commission of navigation on November 16, at Nancy, to receive instructions regarding the question of railways, navigation and telegraphs.

Paris.—The German delegates, probably will head the German delegation to the peace conference, according to a Zurich dispatch to "Information." In diplomatic circles in Zurich it is not believed that the German delegates can be nominated before the end of the week.

It is pointed out that it will be difficult to make up a common delegation now that Germany has two score republics apparently without relation between themselves.

PETAIN ORDERS TROOPS TO SHUN VIOLENCE

French Soldiers Are Urged to Avoid Retaliation in March to Rhine

With the French Army in France.—General Petain, the French commander in chief, has issued the following order of the day to his troops:

"To the French armies: During the long months you have fought, history will record the tenacity and fierce energy displayed during these four years by our country, which had to vanquish in order not to die.

"Tomorrow, in order to better dictate peace, you are going to carry your arms as far as the Rhine. Into that land of Alsace-Lorraine that is so dear to us you will march as liberators. You will go further, all the way into Germany, to occupy lands which are the necessary guarantees for just reparation.

"France has suffered in her ravaged fields and in her ruined villages. The freed provinces have had to submit to intolerable vexations and odious outrages, but you are not to answer these crimes by the commission of violence, which, under the spur of your resentment, may seem to you legitimate.

"You are to remain under discipline and to show respect to persons and property. You will know, after having vanquished your adversary by force of arms, how to impress him further by the dignity of your attitude and the world will not know which to admire most, your conduct in success or your heroism in fighting.

"I address a fond and affectionate greeting to our dead, whose sacrifices gave the victory. And I send a message of salutation full of affection, to the fathers, to the mothers, to the widows and orphans of France, who in these days of national joy dry their tears for a moment to acclaim the triumph of our arms. I bow my head before your magnificent flags. Vive la France!

"PETAIN."

Petaluma.—Manuel Perry, aged 18, narrowly escaped being killed when he was shot on the right cheek by a 22-caliber rifle. He was riding in an auto truck when the shot was fired by an undiscovered person. An investigation is being made.

PRESIDENT TO MAKE VOYAGE IN DEC.

Presence at Meeting's Outset Necessary, White House Announcement Says; Long Stay Not Likely

Washington.—President Wilson will attend the opening session of the peace conference. This was announced Monday night officially. He will go immediately after the convening of the regular session of Congress on December 2.

This official statement was issued at the White House:

"The President expects to sail for France immediately after the opening of the regular session of Congress for the purpose of taking part in the discussion and settlement of the main features of the treaty of peace. It is not likely that it will be possible for him to remain throughout the sessions of the formal peace conference, but his presence at the outset is necessary in order to obviate the manifest disadvantages of discussion by cable in determining the greater outlines of the final treaty, about which he must necessarily be consulted. He will, of course, be accompanied by delegates, who will sit as representatives of the United States throughout the conference.

"The names of the delegates will be presently announced."

How long the President will remain abroad he himself probably cannot say now. The time for the convening of the peace conference has not yet been announced, but the general belief here is that it cannot be assembled before late in December at the earliest. If such proves the case, the President will be absent from the country for at least a month, and probably longer.

What plans the President may have for his trip other than to attend the opening of the peace conference and to participate in the discussions among the representatives of the associated nations which will precede it, have not been revealed. He undoubtedly will be accompanied by Mrs. Wilson.

U. S. TROOPS MAKE OFFICER PRISONER

With the American Army in France.—To be taken prisoner by American troops was the experience of Brigadier-General Douglas MacArthur, a brigade commander of the 42d Division. The 1st and 42d divisions were advancing rapidly that day toward Sedan, and in the region of Autrecourt the lines of the two divisions became criss-crossed.

General MacArthur, who was at the head of the advance of his men, was taken prisoner by soldiers of the 1st Division, who could not believe that any Americans were ahead of them. The situation was explained quickly and General MacArthur released. He then good-naturedly went about straightening out the line and the two divisions were soon fighting the Germans with full vigor. The incident did not delay the advance, and by night each division had taken its objectives for the day.

WAR'S END PREDICTED BY TONOPAH PROPHECY

Tonopah, Nev.—William Brown, well-known local resident, is a prophet who is not without honor in his own home. Last March, when things looked like a German victory, Brown predicted the war would terminate in a victory for the allies in November, and that Bulgaria would be the first nation to collapse, followed by Austria-Hungary. The prediction stirred some interest at the time, and was sealed and placed in a local bank by Brown. At that time the Germans were smashing toward Paris, with the allies retreating everywhere. Its exact fulfillment has caused much comment.

FOUR POUNDS SUGAR LIMIT AFTER DEC. 1

San Francisco.—The increase in the sugar allotment to individuals from three pounds per person per month to four pounds per person per month will not become effective until December 1. This was announced by Preston McKinney, acting food commissioner for California. Grocers now have sufficient stocks to meet the increased allotment and they will be unable to get the necessary additional supplies until receipt of the December certificates, which may be obtained any time after November 25.

U. S. URGES STATE TO GROW CASTOR BEANS

San Francisco.—Farmers of California are being urged by the United States Department of Agriculture to plant castor beans. N. R. Mueller of that department is in San Francisco, at the Hotel St. Francis, after a trip distributing castor bean seeds over the State. The necessity of increasing the castor oil supply because of its use as an airplane engine lubricant explains the United States' interest in this crop, Mueller said.

ANTI-JEWISH RIOTS REPORTED IN POLAND

Stockholm.—The Jewish press reports that anti-Semitic riots have broken out in several towns in Western Galicia and in Poland. Six Jews have been killed at Stedice, fifty miles southeast of Warsaw.

Red sumac flames across the hill, And in each wood-fringed hollow, The autumn breeze among the trees Calls, "Follow, follow, follow!" The pumpkins gleam like vagrant gold, The grain is silver shining; The very clouds a 'rue' unfold, To show a rosy lining!

Red sumac flames across the hill, Where fading sunlight lingers, And points the way for me to stray, With soft, enchanted fingers—And as I stand beside the way, The world seems throbbing, living—And there I feel God's love today, And thank him for Thanksgiving!

—Christian Herald

OBJECTED TO CUSTOM

Observance of Thanksgiving Was for a Period Not Popular in Southern States.

IN the South Thanksgiving day was practically unknown until 1855. In that year Governor Jones of Virginia sent a letter to the state legislature urging a recognition of the day that might issue a proclamation for its observance; but he was advised that as most of the citizens of the state regarded this day as "a relic of Puritanic bigotry," he ought not to urge its observance.

Two years later Governor Wise, the successor of Jones, without asking advice of the legislature, issued a proclamation, and the people, generally throwing aside their prejudice, observed the day.

In the next year, 1858, eight governors of southern states issued proclamations after the model of New England, calling upon their people to observe the last Thursday in November as a day for thanksgiving. But the Civil war was at hand, and the bitterness engendered in the long controversy over slavery caused many violent opponents of the North to oppose the proclamation, because of the introduction of a "Thanksgiving custom."

Undoubtedly our present Thanksgiving day has its prototype in the Plymouth thanksgiving festival of 1621. It has been asserted repeatedly that the Plymouth festival was suggested to the Pilgrims by the Jewish "Feast of Ingathering."

If the Plymouth festival has immediate kinship with similar events in the past, it has analogies with the harvest home of England. The Pilgrims were familiar with the English celebration, and many of them, no doubt, had participated in it. The dominant mark of each was the joy over the ingathering harvest.

The chief difference between the two was the want of ceremony at Plymouth that characterized the English festival. In some parts of England the merrymaking was around the "Nodding," or "kern baby," and in many places the last load of the harvest was drawn to the barn in a wagon called the "hock cart." In front went pipe and labor, and around it gathered the reapers, men and women, singing joyously as they proceeded. At Plymouth there was no ceremony. There was no harvest song so familiar in the fatherland:

Here's health to the barley mow; Here's health to the man Who very well can Both harrow and plough and sow.

Time for Self-Examination. The Thanksgiving season is a good time to examine self and see if there is anything in our life that hinders the progress of the neighborhood. It may be that we are standing in the way of community progress unaware. It may be that while we feel that we are leaders we should be followers instead, or at least one who works with others instead of in advance of them. Society does not care whether we lead or whether our neighbor leads. What society wants is progress and we will be held responsible if we do not sacrifice our own peculiar views if necessary for the welfare of the neighborhood.

SOMETIMES

Landlady (at Thanksgiving dinner): We should be thankful for small mercies. Boarder (looking at small turkey): We have to be.

THOMAS J. MOONEY DENIED A NEW TRIAL

Supreme Court of the United States Refuses to Review Evidence

San Francisco.—The Supreme Court of the United States refused to review the case of Thomas J. Mooney, now at San Quentin under sentence to be hanged December 13 for murder in connection with the bomb explosion during the Preparedness parade in this city, July 22, 1916.

The court announced its decision through Chief Justice White without comment.

Mooney's application to the Supreme Court to review his case was made on the ground that his conviction had been obtained through fraud on the part of the District Attorney of San Francisco.

The application was made after re-cour to the State courts was exhausted September 16, with the denial of a writ of error by the Supreme Court of California.

"The last prop is knocked from under Mooney, with the exception of possible action by Governor Stephens," said Attorney Edwin V. McKenzie of counsel for the condemned man. "We expected a denial from the Supreme Court, but it was up to us to exhaust every possible means of getting a new trial for Mooney."

At Sacramento it was said that there was no indication to be had of what further action, if any, Governor Stephens will take in Mooney's case. An application for a pardon is pending before the Governor, who, last July, granted Mooney a reprieve from August 23 to December 13.

Mooney, who is in "death row" at San Quentin, declined to comment when Warden James J. Johnson told him that his application to the Supreme Court had been denied.

Thomas J. Mooney was convicted on February 10, 1917, in Judge Franklin A. Griffin's department of the Superior Court of the murder of Mrs. Irene Van Loo of Merced, who was killed with nine others by the explosion of a bomb at Stewart and Market streets during the Preparedness parade.

He was arrested with his wife, Mrs. Rena H. Mooney, at Querneville five days after the explosion, as they were on their way to give themselves up. They were in the papers, they said, that they were wanted as suspects. Warren K. Billings, Israel Weinberg and Edward D. Nolan had previously been arrested.

Billings, who was tried first, was convicted and sentenced to Folsom for the murder. Mrs. Mooney and Weinberg were tried and acquitted. Nolan was released on bail.

After Mooney's trial a charge was made by his attorneys that his conviction had been obtained by perjured testimony given by Frank C. Oxman, a principal witness, and others. Oxman was tried on a charge of attempted subordination of perjury and acquitted.

On September 11, 1917, the State Supreme Court denied an application for a new trial accompanied by a "consent" filed by Attorney-General U. S. Webb. On March 1, 1918, the State Supreme Court denied an appeal for a new trial on the ground of reversible error. A later application for a writ of coram nobis was also denied, and a final application for a writ of error was denied on September 16. In the meantime Mooney had been taken to San Quentin on July 17 under sentence to die August 23. On July 27 Governor Stephens reprieved him until December 13.

AUSTRIA WANTS NEW REPATRIATION TERMS

Washington.—Austria has asked President Wilson to use his good offices with the allies to secure a modification of the Turkish armistice terms so as to permit several thousand former Austro-Hungarian subjects now in the Ottoman territory to remain there, instead of returning home to add to the already serious food problems.

Turkey is required by the armistice terms to repatriate all subjects of the central powers within her borders. This clause was designed particularly to drive out the Germans, who virtually controlled the Turkish Government.

The appeal to President Wilson, which comes from Vienna in the form of an unsigned note, points out that Austria-Hungary no longer is a belligerent, and that the necessity for insuring the removal of the Austrians from Turkey does not now exist.

U. S. MAKES ITALY NEW \$100,000,000 LOAN

Washington.—A credit of \$100,000,000 for Italy was announced November 14 by the Treasury. This will be used largely to pay for foodstuffs and war supplies already ordered by the Italian Government in this country and in process of manufacture or export. Italy's aggregate loans from the United States now amount to \$1,160,000,000, and those of all the allies \$7,512,976,666.

Over Seas for Freedom.

LET us be glad together that the passionate love of freedom that made the Pilgrim Fathers set sail in fragile ships to brave the unknown terrors of the inhospitable New England coast is driving us back over the seas in dreadnaughts to face the known horrors of modern warfare.

"When that spirit dies there can be no more thanksgiving in America. As long as this spirit lives it is always Thanksgiving day, whatever happens, or whatever we may have or may not have for dinner.

Let us give thanks that years of prosperity and fetters, years of peace and security, have not served to make us entirely forget that unless we love freedom more than life, we are already as one dead; unless we know the difference between real peace and selfish security, we are already a conquered people.

Let us give thanks for our strength, our wealth and our opportunities garnered under the protection of even a dawning democracy, and for the chance to pour them out without stint for the spread of democracy to every corner of our world.

ANNE LEWIS PIERCE.

CUSTOM AN OLD ONE

Pages of History Filled With Record of Days Set Aside for Giving Thanks.

THE idea is prevalent throughout the United States that our Thanksgiving day is peculiarly an American custom of New England origin. This is true in part only. The general observance through many years of a set day on which to give thanks to Almighty God for his blessings has made the custom distinctively American; but its origin long antedates the settlement of this western continent and we must look elsewhere for it.

In old Egypt, when the harvest had been gathered, it was the custom to observe a day of feasting and to lay offerings upon the altars of Isis, the goddess of agriculture. The Jewish festival was the "Ingathering," or the "Feast of the Tabernacle," mentioned in Exodus and other parts of the Old Testament. This was more particularly a thanksgiving for the fruit harvest, but as it came at the close of the entire harvest it probably was intended also as a general thanksgiving "for the bounty of nature."

The goddess of the Roman harvest was Ceres. Her festival was celebrated annually and was called Cerealia. It was a day of worship and rustic sports. Men and women formed processions and went to the fields with music.

In one way or another, a Thanksgiving day had been observed in Christian Europe for centuries before its celebration in New England. The early Christians kept such days as the bishops named them within their jurisdiction. On the continent, and for a time in England, it occurred at Martinmas, which was a day of feasting and drinking. Occasionally, too, civic authorities recommended the observance of some fixed day.

Real Day of Thanksgiving.

There is a difference between being thankful and having a good time. One can enjoy an elaborate dinner and the meeting of friends without any uplift of the heart to the Giver of all good. Make Thanksgiving more than a jolly day, a day of festivity and good cheer and friendly companionship. Put aside a portion of it for real Thanksgiving to him to whom your thanks are due.

Golden State News

TERSELY TOLD

Sacramento.—Dr. Gus Simmons, Commissioner of Public Health and Safety here, reports a big decrease in influenza cases and deaths.

Truckee.—Dr. H. L. Swayer, physician in charge of the hospital of the Hobart Mills estate, has gone to San Francisco to enter the Government service.

Sacramento.—Private William D. Bellows, reported by the War Department to be missing, was killed in action in France, according to a letter received from France by his parents here.

San Jose.—William H. Peckham of San Jose and one of the best-known men in this city, died of blood poisoning resulting from an injury to his hand. Peckham was born in San Jose in 1849. He leaves four children.

San Mateo.—Robert Wisnom, wealthy landowner of San Mateo, is critically ill at his home here. He has been in poor health for several years and his condition was aggravated by an operation performed about a week ago.

Petaluma.—Mrs. Frank Springer and her daughter, Caroline, were injured November 12 when the vehicle in which they were riding was struck by an auto driven by Robert Ross and was demolished. Miss Springer was caught beneath the wreckage of the buggy.

Amador City.—Willie Truscott, 10 years old, was burned about the eyes, face and arms in an explosion which resulted when he played with carbide, acetylene gas and a match. He said he had heard the gas arising from carbide would explode if touched with a match and that he wanted to experiment.

Placerville.—Ruth Burke, Lucile Mills and Dorothy Fitch, three prominent young women of Placerville, members of the Women's Land Army, Monday, November 11, conducted a shoe-shining parlor, the only business place open throughout the day, and cleared their quota of \$15 for the United War Workers fund.

Santa Cruz.—A telegram received announces the death at Camp Humphries, Va., of Lieutenant Leon L. Clarke, his death being caused by pneumonia. Last summer Lieutenant Clarke had charge of the State highway construction work in this county, being a civil engineer. He leaves a widow and child in this city.

Santa Cruz.—J. E. Tucker of Scott's Valley was arrested here on charges of arson, following an investigation of several weeks by B. C. Bergen of the State arson bureau. On January 10 a fire broke out in his place near Stockton. This was followed by another mysterious blaze on August 7. Tucker will be taken to Stockton. His bail has been fixed at \$5000.

Berkeley.—Henry D. Oliphant, a Berkeley boy, is a wounded prisoner in a German hospital at Kreuznach, according to a telegram received by his father, Robert C. Oliphant, 3122 Eton avenue. Young Oliphant was reported missing in action October 11, and his exact whereabouts has been located through the International Red Cross at Geneva.

San Francisco.—Arthur E. Miller, one of General Pershing's wounded crusaders and former member of the San Francisco Fire Department, who returned to this city a month ago, obtained a license to wed Miss Edna Peters, a nurse, living in Oakland. Miller resides at 967 Hayes street. He was invalided home after nearly a year's service abroad.

Sacramento.—Mrs. Jennie A. Pelletier, wife of George W. Pelletier, first president of the California National Bank and president of the Sacramento Chapter of the Red Cross, died here November 13 after practically fifteen years of ill-health. She was the mother of Miss Jeanette Pelletier, sister of Mrs. Freda Short and daughter of the late Senator and Mrs. Fred Cox.

San Francisco.—Ellis Crouch, orange grower of Riverside, left an estate valued at about \$100,000, according to his will, filed for probate by his widow, Mrs. Emily R. Crouch, 2744 Green street. One-half the estate goes to the widow and the rest to his daughters, Mrs. Edna Walte, who lives with her mother, and Mrs. Bertha Chase of Riverside. Crouch made his home in San Francisco.

Marysville.—Pleading guilty to assaulting Mrs. Joseph Berard, because, he claimed, she would not keep her children quiet while his wife lay ill with influenza, Robert Alvarez, discharged United States Marshal, was fined \$175 by Judge J. M. McQuinn.

Fresno.—Henry Markarian, president of the California Fig Growers' Association, and a recognized expert on the fig industry, died here of influenza-pneumonia. He was 48 years of age and leaves a wife and four children.

San Francisco.—Edwin Mejia, who entered the service several weeks ago and has been stationed at Camp Kearny, left the southern post Tuesday, November 12, for Camp Zachary Taylor, near Louisville, Ky., where he will attend the field artillery oficers' training camp. A number of well-known San Francisco men are already at the southern camp, among them George Bowles, Arthur Vincent, Ward McAllister, Ralston Knox and George McNear.

LABOR ASKS FOR WAR-TIME WAGE

California Federation of Labor Drafts Reconstruction Program in the Interest of Better Wages

San Francisco.—The special committee appointed at the recent convention of the California Federation of Labor to draft a reconstruction programme made its report public Monday.

On the ground that the United States alone still possesses the labor and materials to make the goods the whole world stands in need of, the committee "sees no possible excuse for the cry that wages shall be reduced to the pre-war standard or that working hours shall be lengthened."

It finds that "wage standards established during the war have not kept pace generally with increased costs of living commodities." The programme pledges co-operation with returning soldiers and sailors "in the proper readjustment of industrial conditions to conform to the newly established world democracy," warning the returning fighters of "obvious preparations to exploit the soldiers in uniform to the detriment of their brothers, the soldiers of industry."

It urges the necessity of organization "with greater energy than before," demands the establishment of a standard eight-hour working day, and a further reduction in industries where unemployment threatens. It recommends co-operative organization for the distribution of commodities, the adoption of a system of land values with super taxes on land held idle or for speculative purposes, and urges an extension of the State land colonization plan, public ownership of public utilities, and retention by the Federal Government of the railroads, express and telegraph companies.

The programme calls for strengthening of the seamen's act, labor representation on the State Civil Service Commission, the Board of Regents of the State University, the State Highway Commission, the State Board of Education and other commissions which now have no labor members. It insists that there shall be no curtailment of the progressive and humanitarian work of the State government, and demands the enactment of every measure enumerated in the platform of the California Union of Producers and Consumers.

In conclusion, after pointing to the upheavals that have occurred in Europe, the report says: "Only an intelligent response to and direction of the demand of the workers for a larger participation in the proceeds of industry can avert disaster to established government. This is a warning not inapplicable to the employers of California."

PEACE PROBLEM LOOMS DARKLY

Rise of New German States Presents Difficulties for Pacifists

Washington.—In advance of the meeting of the Supreme War Council, soon to be held at Versailles, officials here decline to discuss the approaching peace conference or to indicate any views the Government may have as to the time or place of its assembly. America's suggestions on these subjects probably will be presented to the council itself by Colonel E. M. House, the Government's special representative in Europe.

The development of the separatist movement in Austria and Germany, resulting in the uprising of so-called independent republics on the basis of former German and Austrian provinces, promises to present much difficulty in the further progress of peace negotiations. Each of these states wishes to be represented independently at the peace table, and adjustment of all these delicate questions is one of the tasks devolving upon the Supreme War Council.

In some quarters it was suggested that the Supreme War Council also may consider at this time some of the protests which have been made by the defeated central powers or their component states against certain features of the armistice which they assert are unwarrantable, or else calculated to create serious conditions among the distressed civilian populations. Should the Supreme War Council decide that some of these terms may safely be modified to prevent such acute distress as will strengthen the threatening evil of an era of Bolshevism in Central Europe, some diplomatic observers regard it as possible that relief will be granted. In no event, however, would any change that would in any way jeopardize the maintenance by the allies and America of absolute military domination over the defeated foe be made.

MEXICO IS PLACED ON GOLD FOOTING

Mexico City.—President Carranza November 13 signed a decree, which will be published on Thursday, reforming the monetary system of Mexico by placing it on a strictly gold basis.

Eyes that tire easily

Can be greatly helped by wearing glasses while reading, writing or sewing. Let me fit you today to glasses that will ease the strain on your eyes and fit so comfortably that you will feel as if you had always worn them.

NEWSPAPERS HARD HIT CAUSED BY WORLD'S WAR

No other business has been hit harder by the war than that of the newspaper, and the country publication has stood the brunt of it. Without the support of the latter the voice of the people would not have been heard nor the war won.

Handicapped by the high cost of material and labor, and the shortage of both, the country editor "stuck type" and washed rollers and "kept the home fires burning," although many closed their shops and the entire working forces enlisted in the service in some capacity in assisting the fighting soldiers.

The vital interests of the nation are most clearly represented and the thoughts of the people most freely and most courageously voiced by the country press.

The people of the country may not see it now, but they will some day realize that the large preponderance of suspensions among the weekly publications is a menace to national welfare.

HOW DEVELOPEMENT IS HELD UP

A deputy city attorney in one of our western cities appeared before a public utility hearing and argued against any more water powers being "grabbed" by a private corporation.

The only water power development that has ever taken place in the west has been accomplished by private corporations and has been equal to the demand of all communities.

It was "grabbed" and millions of capital was expended on the plants that light our cities and drive cars and factories and build towns and irrigate lands.

How long the west would have had to wait for this development if it had not come about by private capital no one knows, but the general guess is it would have been several hundred years.

It would be a good thing for the west if there could be legislation that would allow capital to be enlisted and more water powers "grabbed" and developed in the same way.

From the deputy city attorney to the Senators and Congress, those who insist that water powers shall not be developed until it is done by the government, simply hold up all progress.

What the people of the west want is abundant development of cheap power before we all die of old age.

WHY MINING SHOULD BE ENCOURAGED

The annual report of the Shannon Copper Co. in Arizona shows a few increased costs which apply with equal force to all western mines.

Wages are 120 per cent higher than in 1914.

Fuel oil advanced from 37 1/2 cents per barrel to \$1.35.

Coke advanced from \$3.75 to \$8.60.

Lumber advanced \$10 per thousand feet.

Freight rates 25 per cent.

These figures show the plights of the gold miners, the price of whose metal has been stationary.

Also they show the reason for increased prices for all metals during past two years.

When one considers that in many western states taxes on other property would be practically doubled if it were not for the mines, the reason is clear why measures encouraging to the mining industry, and equitable taxation laws, both state and national, should be demanded as in the best interest of the community.

How Some Would Dodge the War Contribution

The war working committees around the bay all meet with the same excuse given by contributors: "I have given at the other end of the route."

Now, this is a very transparent excuse, and many persons are exposed by the fact that the checking up system tells the tale, and if you are a slacker you are "spotted pronto."

The Boy Scouts are persistent little fellows, and make the "tight wads" come through. One Berkeley Scout chased a man in the Shattuck Hotel until he relinquished a check for \$50. Before the boy left the hotel he had \$75 for the fighting men over there.

Another scout called on a grocer. The latter was going to put him out, but the boy was too speedy for him. Seeing the key in the door the boy closed the door and locked the grocer in. The latter was up against it, for the boy refused to unlock until Mr. Grocer came through with a ten-spot, which he finally did.

Give cheerfully to the War Fund. It is for a good cause. Every cent is accounted for, and every dollar you give will make sunshine for those boys who have saved the day for us.

Thanksgiving Thursday Nov. 28.

U.S. Soldiers Released From Hun Camps Number 2500

More than 2531 American prisoners in German camps were released immediately by the signing of the German armistice, according to the latest figures prepared by the American Red Cross in Switzerland. This number includes all the Americans captured to November 1. It is estimated that only a few hundred more Americans were captured after that date.

THE PESSIMIST

Dough—Yes, old man, I'm going to spend the winter in Florida.

Wough—Lucky dog! It'll be nice and warm down there.

Dough—Yes; but I'll bet there'll be mosquitoes or something.

ALIVE AND WELL.

A Slovak butcher, working at some German headquarters in the St. Michel salient and blissfully unconscious of impending doom, had breezed into Thiancourt, where there was the equivalent of a depot quartermaster, to buy him some supplies, when he found himself gazing on three Yankee sharpshooters.

"I was mighty scared at first," he said, "but they had no sooner spoken than I found they were Slovaks, too. You must have all nationalities in your army. Well, they gave me an orange, they gave me a piece of chocolate, they gave me a cigarette, and here I am."—Paris Stars and Stripes.

CATHOLIC BOYS JOIN WAR WORK CAMPAIGN

Girls, Too, Will Stand With Them Behind Every Fighter at the Front.

To put behind every Catholic fighter in France the support of one boy or girl in every parish throughout the United States is the plan of the National Catholic War Council for backing the Victory Boys' and Victory Girls' "Earn and Give" Division of the United Work War Campaign to raise \$170,000,000 "for the boys over there" during the week of November 11-18.

Through diocesan, county and parish organizations, the rallying of one youngster for every man who has gone to war in every community is already under way. By their own earnings, and not by contributions, it is expected that these sturdy little sponsors for the boys abroad will each raise at least five dollars for the joint welfare work of the Y. M. C. A., Y. W. C. A., National Catholic War Council, including the Knights of Columbus, War Camp Community Service, Jewish Welfare Board, American Library Association and Salvation Army.

Boys and girls in every Catholic parish throughout the United States are already being picked to represent each fighting man who has left their church for the front. In every home that flows a service flag little brothers and sisters, sons and daughters, are eagerly volunteering to look out for the share of their family fighter in the huge joint welfare campaign for all the boys abroad.

WILLING, BUT PRUDENT.

"Did you take any war workers in your automobile?"

"Not this morning," confessed Mr. Chuggins. "The carburetor was popping, a tire was going flat and my radiator was leaking. I was afraid the war would be over before I got 'em to work."

SURE.

"We should never kick a man when he's down."

"That's so. But in the Kaiser's case I imagine it will pay us to make sure that he's down before we quit kicking."

EVEN THE ERUDITE.

"What are you grinning at?" "Perhaps I should not grin, but that college professor has never been considerate of my feelings."

"Well?" "So I can't suppress a smile as I watch him struggle with his questionnaire."—Louisville Courier-Journal.

FELT SHE HAD "KICK" COMING

Woman's Remorsement at What She Considered Overcharge Expressed in No Uncertain Manner.

Two women stared in a store window. Both had weather-beaten faces and hands that showed for work, and the woman who was talking had the loud voice of one used to calling across the open:

"Look at that plate, will you, only 10 cents, and I went and paid a quarter for the spit image of it at the church picnic last August."

Sadie defended the picnic with a like far-reaching voice:

"You couldn't expect to buy the same plate for no 10 cents down yonder, after the managers had to pay their way up here and pick it out."

"Shuh, the church paid their way up. One thing, you don't catch me paying no thriffling price for any plate again—not if I live to be a hundred. Next time I go to a church picnic, I'm going to pay my 50 cents for the dinner, same as ever, because the shote and goshin is worth it, but when any of them women behind them tables undertake to make me pay all that money for a plate that isn't worth nair more than 10 cents, I'll up and tell 'em I know what's what, even if I do live in the pines. I'm no mean woman and I want to do right by my church, but it seems naubicious to have a hard-working woman like me pay a quarter for a plate that's only worth 10 cents."

Especially when she finds it out. —Washington Star.

NOTICE TO CREDITORS.

In the matter of the Estate of Charles Pauloe, deceased, No. 4462.

ZEROLENE The Standard Oil for Motor Cars

It Keeps the Engine Young!

Experts agree in recommending ZEROLENE because it keeps the engine young—full-powered, smooth-running, and economical in fuel and oil consumption.

The majority of motorists are now using ZEROLENE, because they have learned by experience that there is no better oil to be had.

Correctly refined from selected California asphalt-base crude, ZEROLENE gives perfect lubrication with less wear and less carbon deposit. Less wear because ZEROLENE keeps its lubricating body at cylinder heat. Less carbon because, being made from asphalt-base crude, it burns clean and goes out with exhaust.

ZEROLENE is the correct oil for all types of automobile engines. It is the correct oil for your automobile. Get our lubrication chart showing the correct consistency for your car.

At dealers everywhere and Standard Oil Service Stations
